

DEMON/DRAGON FLY BEAM MOUNTED

BOXCAR PLUG DOOR OPENER

Demon Fly

Dragon Fly

Our Fly beam mounted unit is available with Electric (Demon Fly) or Pneumatic (Dragon Fly) power options and offers a permanent and powerful solution for opening your toughest hopper gates safely and productively. The unit mounts to a heavy duty "trolley" which easily slides back and forth on a 6" beam.

A telescoping shaft with customizable lengths allows the unit to reach the wide variety of capstan depths, and the electric model has a hydraulic lift option to easily adjust to varying heights. In addition, a rotation option is available to completely remove the drive shaft from the walkway. These options enable the Fly units to fit where other beam mounted solutions may not.

BENEFITS:

- Prevents operator injury
- Increases unloading speed
- Easy, single-person operation
- Smooth, continuous torque
- Low maintenance cost
- Low maximum noise: 85 – 90 dBA

FEATURES:

- Beam mounted – W6 x 25 Beam (customer supplied)
- Electric model - several power options
- Explosion proof motor (Demon Fly)
- 70 CFM and 90 PSI required (Dragon Fly)
- Customizable shaft lengths and rotation option to fit most work spaces
- Hydraulic lift available on electric model
