

DC BATTERY TWO-WHEEL

RAILCAR HOPPER GATE OPENER

(with optional hydraulic lift kit and side-shifting wheels)

The DC Battery Two-Wheel Hopper Gate Opener provides maximum mobility while maintaining Door Demon's proven power to open even your toughest gates safely and efficiently. Using battery power, this unit is the perfect solution for those without an available power source at the work site for ultimate mobility.

A typical charge opens about 30 gates in succession before a battery recharge is required, and it performs at full power until the last door. If you open empty cars or the gates open fairly easily, it will last much longer.

BENEFITS:

- Prevents operator injury
- Increases unloading speed
- No power source required during unloading
- Single-person operation
- Smooth, continuous torque
- Low maintenance cost
- Low maximum noise: 80 dBA

FEATURES:

- DC Battery over hydraulic system
- Smart battery charger included
- Options include powered lift and powered side-shifting wheels (as shown)
- 6" – 20" vertical height adjustment
- Stabilizer bar for torque suppression
