

DRAGON AIR TWO-WHEEL

RAILCAR HOPPER GATE OPENER

The Dragon Air Two-Wheel Hopper Gate Opener perfectly combines mobility and speed to safely open the toughest railcar gates. One of our strongest units, the Dragon features a powerful air motor and gearbox combination designed to produce the most torque possible at an optimal speed for both productivity and safety.

The use of continuous torque provides significant power in a very controllable manner. Also, unlike pneumatic powered impacting units often found in the market, the Dragon puts very little strain on the operator and operates at a much lower noise level.

BENEFITS:

- Prevents operator injury
- Increases unloading speed
- Easy, single-person operation
- Smooth, continuous torque
- Low maintenance cost
- Low maximum noise: 90 dBA

FEATURES:

- Air powered – 70 CFM and 90 PSI required
- Available options include powered lift and powered side-shifting wheels (as shown)
- 6" – 20" vertical height adjustment
- Stabilizer bar for torque suppression
