

DEMON STICK

MANUAL RAILCAR HOPPER GATE OPENER

The Demon Stick is our manual, low-cost opener which can be carried or mounted to a two-wheel cart. Ideal for lower volume operations or as a backup unit, the Demon Stick allows the operator to get out from under the railcar, while putting the operator in a better position to open difficult gates. The reversible ratchet drive allows for easy direction change.

Manual height adjustment and a pivoting mount allow the demon stick to reach the vast majority of capstan levels. Ships with a drive bit and a 3-foot extension.

BENEFITS:

- Prevents injury
- Single-person operation
- Extremely portable
- Removes operator from under the railcar

FEATURES:

- Reversible ratchet
- Heavy-duty handle provides leverage
- 3-foot extension included
- Stable base provides solid footing
